

BEALE STREET

POWERED BY MEMPHIS

INTRODUCING THE BEALE STREET

POWERED BY MEMPHIS

THE BEALE STREET BRINGS PRECISION AND CONFIDENCE TO THE ART OF WOOD FIRE GRILLING

Utilizing the proprietary technology of the Memphis Wood Fire Grills' Intelligent Temperature Control (ITC™), the Beale Street Grill offers precision and dependability, delivering a perfect meal every time.

Front Loading Pellet Hopper

SEAR A STEAK? COOK A WOOD-FIRE PIZZA? SMOKE A BRISKET? ROAST A TURKEY? BAKE FRESH ARTISAN BREAD?
IT'S ALL POSSIBLE ON A BEALE STREET GRILL, POWERED BY MEMPHIS

THE POWER OF INTELLIGENT TEMPERATURE CONTROL

The Beale Street takes wood fire grilling to a new level, combining the great flavor of wood fire cooking with the ease and versatility of premier kitchen appliances. Fueled by 100% natural wood pellets, our exclusive one-touch ITC™ Intelligent Temperature Control automatically maintains your desired temperature just like an indoor oven. Meanwhile, one of three digital food probes can measure the internal temperature of your food ensuring that your masterpiece is done to perfection. And you can download the free Memphis app to check or adjust your temps even when you're away from home.

OPTIONAL:

- » Direct Flame Insert for searing
- » Additional Grate Kit for expanded cooking surface
- » Meat Probes
- » Genie Tool
- » Cover

INTELLIGENT TEMPERATURE CONTROL (ITC™) AND MEMPHIS GRILLS MOBILE APP

Our integrated Wi-Fi controller and free Memphis Mobile App (iOS and Android) give you the freedom to monitor and adjust your grill and food temps from anywhere you desire. Our technology works through the Cloud, ensuring you can monitor/control your grill from home, work, the store, or your car (the passenger seat, of course). And you can even set it up to receive email or text alerts when your meat is cooked to perfection.

INDIRECT AND DIRECT FLAME COOKING

The Beale Street Grill comes standard with the indirect cooking insert, and is available with an optional Direct Flame Insert, meaning you can smoke a brisket and roast a turkey, or switch inserts and sear a burger or steak directly over a wood fire.
