

Focus 3600i Insert

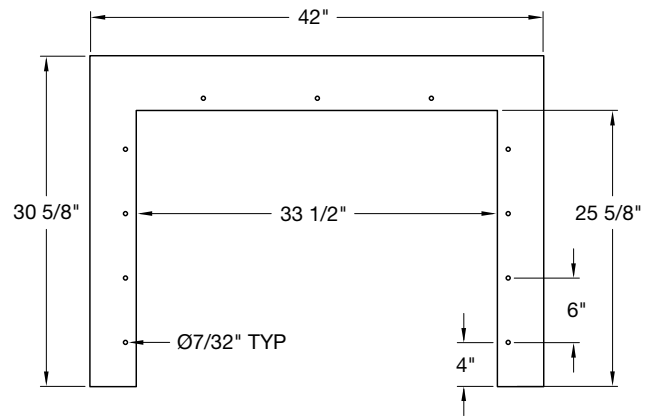

Focus 3600i Insert

Introducing a new chapter for the RSF brand. The Focus 3600i is the very first wood burning fireplace insert developed by RSF. Its quality construction, low emissions, and high efficiency embody over 30 years of quality fireplace construction and experience.

The Focus 3600i brings a contemporary style while eliminating the draft of the open masonry fireplace. At the same time, it allows you to enjoy the warm ambiance and beauty of a crackling fire with the safety of an air-tight glass door.

The Focus 3600i insert comes with a standard surround trim. For larger spaces, a 42" x 30 5/8" backing plate is available as an option.

- Clean, modern styling
- Certified to NSPS 2020 at 1.49 g/hr
- Heat activated internal blower
- Detachable flue collar with pull handle

Optional Focus 3600i Backing Plate
